Attn. Len Burgess

Dear Len

Re: Diamond Kleen

Pool Tek replaced the sand in the sand filter of my swimming pool recently with your product Diamond Kleen. The sand had not been replaced since the pool was built in 1995 and was in urgent need of attention as the water had become very cloudy and all cleaning measures I had taken had not worked. At your suggestion I agreed for Pool Tek to replace the sand with Diamond Kleen and I am very glad to report that the pool water has come up crystal clear since Pool Tek completed the job. Thank you very much for your advice and I can certainly recommend Diamond Kleen to any of your customers who have the same problems with their pools.

Yours faithfully

Lionel Williams
